## SEGUNDA SECCION

### SECRETARIA DE COMUNICACIONES Y TRANSPORTES

---

**DISTANCIAS ortodrómicas y los grupos de peso de las aeronaves, conforme a los cuales se calcularán los derechos correspondientes a que se refiere el artículo 150-A de la Ley Federal de Derechos.**

---

Al margen un sello con el Escudo Nacional, que dice: Estados Unidos Mexicanos.- Secretaría de Comunicaciones y Transportes.

FERNANDO ANTILLON VALENZUELA, Director General de Aeronáutica Civil, con fundamento en los artículos 1o., 2o., 26 y 36 fracciones I, XII y XXVII de la Ley Orgánica de la Administración Pública Federal; 6 fracciones IV y XV y último párrafo de la Ley de Aviación Civil; 150 y 150-A fracciones III y IV de la Ley Federal de Derechos, y 1o., 2o., 10 fracciones I y IV y 18 del Reglamento Interior de la Secretaría de Comunicaciones y Transportes, y

#### CONSIDERANDO

- I. Que con fecha 1 de enero de 2002 fue publicado en el **Diario Oficial de la Federación** el Decreto por el que se reforman, adicionan y derogan diversas disposiciones de la Ley Federal de Derechos, en adelante la Ley, en el cual se adiciona el artículo 150-A;
- II. Que las fracciones III y IV del artículo 150-A de la Ley establecen que la Dirección General de Aeronáutica Civil deberá autorizar al órgano desconcentrado denominado Servicios a la Navegación en el Espacio Aéreo Mexicano (SENEAM), y publicar en el **Diario Oficial de la Federación** las distancias ortodrómicas y los grupos de peso de aeronaves, conforme a los cuales el usuario calculará los derechos correspondientes;
- III. Que con fundamento en el citado artículo 150-A de la Ley, mediante escrito de fecha 16 de enero de 2002, el Director General de SENEAM solicitó la autorización de esta Unidad Administrativa, de las referidas distancias ortodrómicas y de los grupos de peso de las aeronaves.

Por lo antes expuesto y con fundamento en las disposiciones jurídicas antes indicadas, una vez analizadas las distancias ortodrómicas entre los puntos coordinados dentro de la República Mexicana y los grupos de peso de aeronaves presentadas por SENEAM, esta Dirección General de Aeronáutica Civil tiene a bien autorizar las distancias ortodrómicas entre los puntos coordinados dentro de la República Mexicana y los grupos de peso de aeronaves que se anexan al presente.

Publíquese en el **Diario Oficial de la Federación** para los efectos establecidos en el artículo 150-A de la Ley.

México, Distrito Federal, a ocho de febrero de dos mil dos.- El Director General de Aeronáutica Civil,

**Fernando Antillón Valenzuela.- Rúbrica.**

Los pesos de las aeronaves que anteriormente se describen, corresponden al peso promedio al que se refiere el artículo 150-A fracción IV de la Ley Federal de Derechos, el cual se determinó entre el peso cero combustible (MZFW) y el peso máximo estructural de despegue (MTOW), para un mismo modelo y serie de aeronave. En los casos en que para un mismo modelo y serie de aeronave, se obtuvieron distintos pesos promedio se aplicó el mínimo de ellos.

**RELACION DE DISTANCIAS ORTODROMICAS ENTRE LOS PUNTOS COORDENADOS DENTRO DE LA  
REPUBLICA MEXICANA**
